The European Hedge Fund Technology Leaders Summit is a highly exclusive event for HFM members and a select audience of CTOs and technology professionals.

The Summit is an ideal opportunity to update your professional knowledge through two days of in-depth panel discussions and roundtables and has been designed specifically for the business needs of CTOs and technology professionals.

As a closed, members-only gathering of top hedge fund technology executives, you will also have the time, space and privacy for networking with other senior professionals via a series of formal and informal receptions and activities.

### **Your complimentary delegate place includes:**

Access to all panels, workshops and networking activities.  
One night's complimentary accommodation at the Garden City Hotel, including meals and HFM's reception and dinner on 16 November.

**To book your complimentary place contact Harriet Spence**

+44 (0) 20 7832 6577 or email [h.spence@hfmweek.com](mailto:h.spence@hfmweek.com)

[www.HFMEuropeanCTOSummit.com](http://www.HFMEuropeanCTOSummit.com)

### **Agenda highlights include:**

- Game changer: How the cyber-security threat came to dominate the role and focus of hedge fund IT professionals...and what should you do about it?
- War games: scenario planning for data breaches and cyber-security events
- Data management, reporting and standardization: are we finally starting to understand and get usefulness from internal data?
- Future-proofing: Looking for the next 'big thing' and making sure that you and your role stay relevant

### **Roundtables:**

- Managing your team and the wider organization's IT expectations
- Changing priorities: The hedge fund tech landscape and regulation
- Mobile mind-set – achieving flexibility and efficiency without the threat
- Cloud and storage solutions
